

## Most Effective Fraud Fighting Techniques

Want to get the most bang for your buck while preventing fraud in your business?

Managers and business owners should focus their anti-fraud efforts in the most cost-efficient manner. Utilizing the available control mechanisms will yield the best results. Business owners and managers are constantly reminded by the media with stories and concerns of being one step ahead of fraudulent activity. In this presentation, we will discuss simple, yet effective tools you can implement to help protect your business.

Shannon & Associates and KeyBank cordially invite you to join us over coffee and pastries.
